July 29—A Day of Tragedy and a Day of Celebration

Wyandotte, Michigan—July 23, 2014. July 29 may not be a big holiday for you, but it is very significant for Dr. David L. Wolf, a Michigan OB/GYN. He had a successful practice and was an industry leader who volunteered his time at several non-profit organizations. That afternoon David got suited up for the change of his life. His pastime was to race go-karts. On July 29, 2001 he crashed into the racetrack wall, smashing his go-kart to pieces and leaving him paralyzed from the waist down. His world went from the top of the mountain to the bottom of the valley within a matter of seconds. From that moment his life changed – miraculously.

David experienced God working through him, not only to help him fight for his life, but to work in other people's life.

July 29 is a day most would remember it as a tragic day that left a man paralyzed. Not David Wolf. He has compiled his life story, with the help of a dear friend, Connie Hurn, into an autobiography, person memoir – *The Gift Is You*.

The Gift Is You is a compelling story of hope, faith, and the power of prayer in the midst of life's suffering and misfortune. Throughout the story, we are reminded there is hope in God's grace and His continued plan for life after tragedy.

The heart of the story revolves around David's journey toward a more intimate relationship with Jesus Christ. Events occurring after his accident provide evidence of the second chance he was given to make a difference – even though distractions and human odds were stacked against him.

His passion for making a difference in people's lives is described vibrantly in his stories. David's heart bursts with gratitude for the gifts he has been given to share with the world, the gifts he has received from others, and the greatest gift of all – Almighty God. This book is not for profit. All proceeds will be donated to [Northwest Haiti Christian Mission](#) and [Laban Ministries International](#).

July 29 is the formal book launch date and will be available for purchase through bookstores and the major online retailers such as Amazon. Instead of remembering July 29th as a day when a tragic accident happened, hundreds of people will be celebrating *The Gift Is You* book launch. And on July 30, David will be “a guest, not a patient” speaking to the staff and patients at the Rehabilitation Institute of Michigan, where he spent numerous months and time recovering from his accident. Coincidence? Or a divine plan?

The time is almost here to celebrate how Dr. Wolf's tragedy has become a tool for demonstrating God's power and encouraging other people. # # #
